Promoting UK Leadership in Clean Energy for Indonesia

The UK Renewable Energy Media Campaign, conducted from January to April 2021 by the British Embassy Jakarta, aimed to raise public awareness of the UK's leadership in renewable energy and establish it as Indonesia's preferred partner in clean energy

development. Riding on the momentum of Indonesia's new presidential regulation on renewable energy, the campaign highlighted UK expertise in key areas such as solar, wind, marine energy, hydrogen, electric vehicles, and waste-to-energy innovation.

Belajar Cara Inggris Mengolah Sampah Jadi Energi

Memanfaatkan sumber daya energi terbarukan (renewable energy) sejak tujuh dekade silam, pada sekirat 1950 an, masyarakat Kepulauan Orikeny emigali pelopop renggunaan energi bersih dan ramah lingkungan di dunia. Saat ini, kepulauan di lepas pantai timur laut Skotifandi sersebut sudah bebas dari keterpastungan terhadap energi fosil penghasil karbon, karena sudah berpindah ke energi yang lebih sehat dan bersih. Energi terbanukan yang tamah lingkungan atau energi bersih in dimarafatan untuk memunuh kebutuhan yang tamah lingkungan atau energi bersih in dimarafatan untuk memunuh kebutuhan dari angin serta arus pasang dan surut air laut. Belakangan, kepulauan ini menjadi pusat pengembangan energi terbarukan di Inogis.

PPROACH

Boosting UK Visibility in Indonesia's Clean Energy Narrative

Through a targeted media strategy, the campaign reached millions via top-tier outlets including Tempo (700K daily reach), Tribunnews (3.5M daily readers), and The Jakarta Post (100K daily readers). It also engaged youth audiences by reaching 12 student communities through

Instagram Live sessions in partnership with the Society of Renewable Energy. The campaign successfully strengthened the UK's visibility and credibility in supporting Indonesia's energy transition and contributed to shaping positive public perception ahead of COP26.
